

## **Drafting an emerging picture**

Name: Helly Nilesh Shah

Community (UN SD goal): Goal 3: Good health and Well being

Date: 17<sup>th</sup> May, 2021

## **Instructions:**

Using your researched information fill out the flowing comparing the current state of the art with what you think new (software) innovations could bring to the community

Covering the orientations			
Compare the left-hand column of the document "Technology configuration inventory" table with the right-hand column of the document "Community characteristics & orientation" table. What do you notice about the match (or mismatch) between your dominant community orientations and the current configuration of tools?			
How well does the technology inventory cover the orientations? What themes emerged from both the community orientations and the technology configuration from your colleagues' notes	The existing technology is also solving the user's problem but not completely, it will not cover all the problems that need to be uncovered. And this platform will provide the one platform to the community which are covid affected.		
<ul><li>☑ Are you almost there?</li><li>☐ Are there big gaps?</li></ul>			
What is the range of skills? If their interests and/or skills are diverse, could it cause conflict or distraction?	The basic skills that are needed which includes to operate the mobile phone or laptops or desktop and have internet connection on that. So the skill level are same with the existing technology.		
Achieving integration			
Look at all the pieces of your configuration			
What level of integration and interoperability has been achieved?	Integration of users and providers will be achieved through this platform.		
Where are there big gaps			
Balancing the polarities (Current state)			
How is the configuration balance	ed with respect to each polarity?
